

Lingua Fences

- For two or more players.
- Give a copy of this paper to every player. Each writes an English word left-to-right or top-to-bottom, one letter per square.
- When everyone finishes, pass the papers clockwise. The players write another word that connects to a word already on the paper.
- The first word must overlap the center square.
- The minimum word length is two letters and the maximum word length is one letter more than the longest word already on the paper

- (keep track on the bottom).
- Any two cardinally adjacent letters must be a part of a valid English word.
- If a player writes a word that completes the enclosure of an area of empty squares, that player claims each empty square as a point and nothing more can be written in that area.
- The edges can be used to enclose areas.
- Players may choose to pass. If a player passes or cannot think of a word, the next player can write two words.
- A paper is removed from play when all squares are claimed or every player passes in succession.
- When all sheets are removed the player with the most points is the winner.

Longest word length: 3
